

SAGE NEWS

March 2015

Wylie SAGE had the opportunity to attend the Plano ISD Inclusive Awareness program at Harrington Elementary. Students were given the opportunity to spend 5 minutes at 10 different stations. One station was for Dyslexia awareness. At this station you had to write with a marker in the hand opposite of the hand you would normally write with. Then look through a mirror and while only looking through the mirror you would trace over a star.

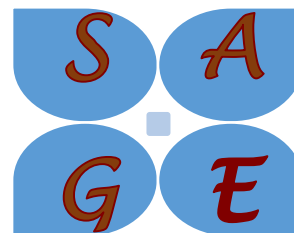

This task proved challenging for students and even adults who tried it. Everyone was given greater awareness of how a simple task proved to be very difficult. The students were told about famous people with dyslexia, like Albert Einstein and Bill Gates who were able to accomplish great things. This reminds SAGE of what having Grit is all about. SAGE can't wait to bring our own CARE (Creating Awareness & Respect Education) hands on workshops for students to Wylie. If you would like to volunteer for this program or volunteer to be a SAGE chair at a Wylie ISD Campus email SAGE at sage@ptawyliecouncil.com SAGE is also collecting items for our CARE workshops. We are in need of old reading glasses, crutches, ankle weights, and wheelchairs.

SAGE is compiling a Community Resource List. If you have a resource you would like to share please email SAGE at sage@ptawyliecouncil.com. For more information on SAGE go to our Facebook page: SAGE of Wylie ISD Council of PTAs.

Upcoming Events

- ❖ Monday, February 23rd
SAGE ARD Process
Workshop 7:00pm ESC Bldg.
- ❖ Tuesday, February 24th
